About The Speaker

Dr. Ali Sajadi, a native of Houston, TX, is a board-certified Periodontist, Oral and Implant Surgeon specializing in a wide range of periodontal care, oral surgery and facial esthetics. Having received his undergraduate education at Washington University in St. Louis with a Bachelor of Arts Degree in Biology and in Economics, he was a noted member of the Forsyth Institute's Human Genome Project Initiative. After completing two years of biomedical research, Dr. Sajadi embarked on a professional career in medical management that led him to attain his Master of Arts in Medical Sciences Degree from Loyola University of Chicago. Upon graduation, he took on a position as Senior Network Account Manager with UnitedHealthcare, and for 3 years rose through the ranks to become one of the most successful negotiators within the company.

Following his passion to help people, Dr. Sajadi completed a 4 year doctorate degree at Indiana University School of dentistry in 2012 and moved back to Houston to complete his residency in Periodontics and Dental Hygiene. There, Dr. Sajadi continued to improve on his skill set by being proficient in all implant and dental surgical modalities with a passion for the rehabilitation and regeneration of periodontal and osseous tissues.

Beyond and within the scope of Periodontics and Dentistry, Dr. Sajadi is a published author in the literature and noted speaker for several companies. He is an active member of the American Academy of Periodontics, Texas Society of Periodontists, Greater Houston Dental Society, Greater Houston Periodontal Society, American Dental Association and the Southwest Society for Periodontists. In many of these organizations, Dr. Sajadi has served as various leadership positions and his professional training and background makes him highly qualified to treat extensive and complex surgical cases.

In his free time, Dr. Sajadi loves to cycle, hunt, fish, cook and read. He serves as the founding member and president of the UTH Periodontics Alumni Association and currently serves as the president of the Greater Houston Society of Periodontists.

COURSE DESCRIPTION

This course will delve into the diagnostic classifications of periodontal disease and the history behind the different classification systems on how to educate the dentist or allied health professional. Further, we will focus on how to determine prognosis, treat accordingly to that determination and what treatment modalities in the current sphere of periodontal therapy exist in order to treat the early, moderate and severe periodontal patient.

LEARNING OBJECTIVES

Upon completion of this course, the participant will be able to:

- Understand the new classification and use it!
- Treatment planning Periodontal therapy for the General Dentist should be easy
- Understand the origin of periodontitis and periodontal inflammation as it relates to systemic health
- Develop a knowledge base of systemic health as it relates to Periodontitis
- Successfully treatment plan the periodontal patient
- Understand periodontal therapy and periodontal regeneration as it relates to saving teeth
- Understand Implant health and how it can be protected
- Develop Maintenance protocols for all types of dental patients
