COURSE DESCRIPTION

This course will provide attendees with a comprehensive review of oral pathology. Common entities will be discussed; a particular focus will be made on oral squamous cell carcinoma and prevention of this malignancy.

LEARNING OBJECTIVES

Upon completion of this course, the participant will be able to:

- Identify potentially malignant disorders
- Determine how to discuss oral findings with patients
- Discuss common lesions affecting the oral cavity
- Discuss how to manage patients with potentially malignant disorders and common oral pathology

"Dr. Clark's sessions will include a lecture format to present the subject information incorporating numerous clinical examples to highlight the material. Personal anecdotes, lessons learned, and audience participation will accentuate key points. The interactive approach will include opportunities to ask questions, share information, and have further discussions throughout the day."

Confirmations will be emailed prior to the seminar. Please provide a valid email for all attending registrants.
